Emmy wrote: "I turned off the signature function because on my Mariner roll call. It is ridiculous the amount of photos and icons people on that thread have."

Cincy-David wrote, "I to like to remove the signatures although they are a lot of fun. I do a lot of browsing on my Blackberry and they are very slow moving and take up lots of screen space on such a small screen."

A special thanks to *Luvs2CruzGA* for telling me how to do this.

Here's how to turn off viewing the signatures.

1. From the toolbar, left-click on "Quick Links" and then on "Edit Options" (**Figure 1**).

2. Then down 3 boxes to thread display, and left-click on the check to the left of "Show Signatures" to remove it (**Figure 2**).
