This lesson shows how to change your Homepage in Internet Explorer 7.

1. Go to the webpage you wish to be your Homepage.
2. Make the change (Figure 1):
 - 1 Click on the down-arrow (▼) next to the “house” to the right of the tab showing the current page.
 - 2 Click on “Add or Change Home Page...”

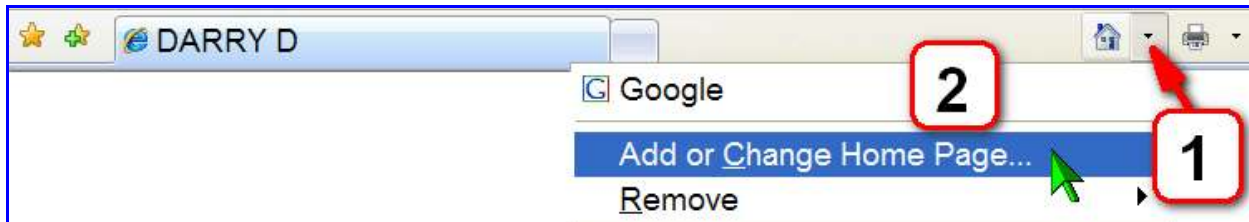

Figure 1

3. Change the setting (Figure 2):
 - 1 Ensure there is a dot next to “Use this webpage...”
 - 2 Click on “Yes” button.
4. Your Homepage is the page you selected in Step 1.
5. To get it from any other page, click on the house
