

Photoshop Elements Organizer

DATE SHOWN

© Darry D Eggleston, 813.677.2871, DarryD@darryd.com

In the Organizer, you may note that the date for each graphic appears to the lower-left of that photo (**Figure 1**).

If you don't want to see the date, from the MenuBar, select View > Details (**Figure 2**). When you click on "Details", the check disappears and the menu disappears as well.

Now the date no longer shows (**Figure 3**).
