

WordPerfect 9 – 14 (X4)
BORDER CHANGED

© Darry D Eggleston, <http://DarryD.com>

In WordPerfect, one can change the border on a graphic or on a text box. Both are changed the same way.

1. RIGHT-click on the graphic border and left-click on “Border/Fill” (Figure 1).
2. Click on your choice of border which will be previewed on the graphic. Then, click on “OK” button (Figure 2).

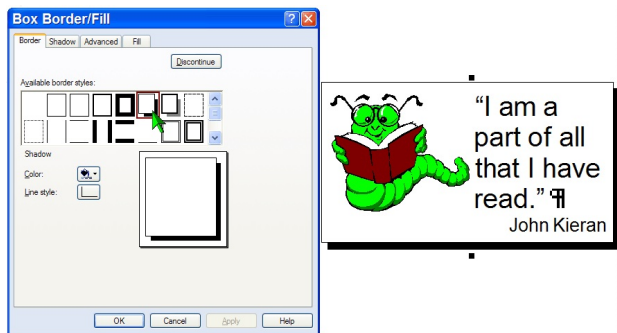

Figure 2

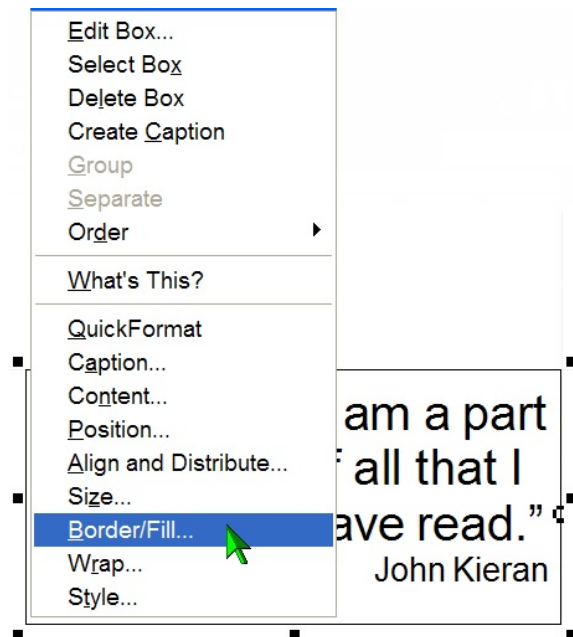

Figure 1

3. You can also change colors of the border by clicking on the color choices (Figure 3). You can also change the thickness of the border.
