

FANCY BORDERS

ARE

FUN TO Use

© Dave Lee¹

I had a lot of those borders but when you sent all of your collection I was inspired to put all of them in the “Borders” folder in my Scrapbook. That way I can insert them easily from the FORMAT ► PAGE ► BORDER FILL dialog box.

That also inspired me to complete and update all of the folders in my Scrapbook so I can insert Clipart easily from there.

Thank you!
