[WP 10](#)

[WP 11](#)

[WP X3](#) (Vista)

[WP X3](#) (XP)

[WP X4](#)

[Present 9](#)

These are the “Default” (locations set by WordPerfect) and “Preferred” (locations selected by me so I can transfer macros, templates, etc. between our multiple computers).

My great friend, Dave Lee, has one of the most workable schemes for his documents and macros. He keeps his documents in “C:\Doc” and his macros in “C:\WPwinmac”. Thus, he does not have to learn new locations each time he gets a new PC. Whatever scheme you design, keep in mind that other files — most of which I have listed — may depend upon knowing where those files are.

To find or to change the file locations, select Tools ► Settings, and click on “Files” icon. There you find the locations (**Figure 1**).

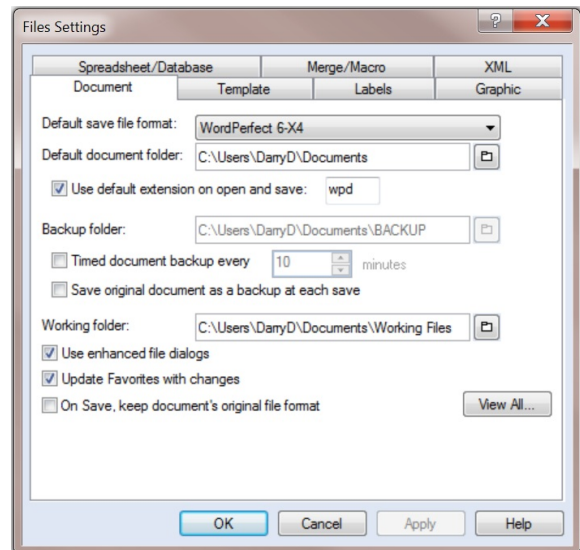

Figure 1

WP 7 FILE LOCATIONS

- Documents: C:\MyFiles
- Graphics files: C:\Corel\Office7\Graphics
- Macros: C:\Corel\Office7\Macros\WPWIN
- Presentations macros: C:\Corel\Office7\Macros\PRWIN
