

Windows 7 SYSTEM RESTORE

© Darry D Eggleston¹

If your system is infected — or you suspect it is — the easiest way to fix it is to use System Restore. This is how to do it in Windows 7.

1. With all programs closed, from the desktop, select Start button and then Control Panel (**Figure 1**).

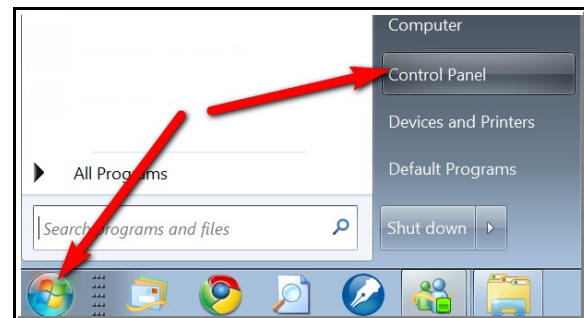

Figure 1

2. In the Control Panel, Left-click on “System” (**Figure 2**).

Figure 2

3. Left-click on “System Protection” in the left column (**Figure 3**).
