

Windows XP SPACE AVAILABLE

© Darry D Eggleston, 813.677.2871, DarryD@darryd.com

Sometimes you want to know how much hard drive space remains on your PC. Here's how to do that in Windows XP.

1. Click on Start > Control Panel (**Figure 1**).

Figure 1

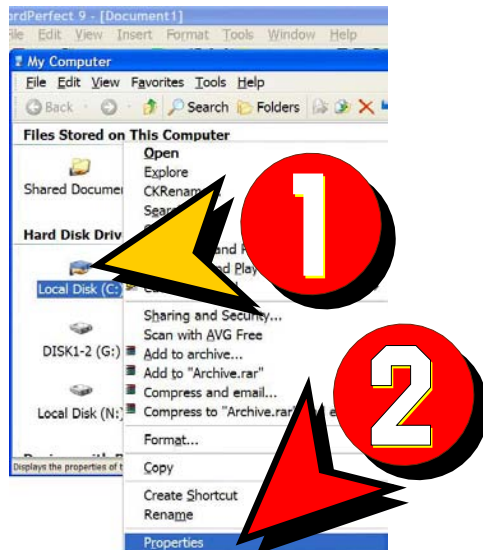

Figure 2

2. Open

properties (**Figure 2**):

- ① RIGHT-click on the drive.
- ② Left-click on "Properties."

3. The used and free space is described and shown (**Figure 3**).
